About Herantis Pharma Plc

Herantis Pharma Plc is a clinical-stage biotechnology company developing disease modifying therapies for Parkinson's disease. Herantis' lead product HER-096, is an advanced small synthetic chemical peptidomimetic molecule developed based on the active site of the parent CDNF protein. It combines the compelling mechanism of action of the CDNF protein with the convenience of subcutaneous administration. The ongoing Phase 1a clinical study will assess safety, tolerability, and blood-brain barrier penetration of subcutaneously administered HER-096. Top-line data is expected by the end of 2023. The shares of Herantis are listed on the Nasdaq First North Growth Market Finland.
