

Expanded R&D expertise in Kebni's Board of Directors

Kebni's Board of Directors intends to appoint former Volvo CE Head of Engineering as technical advisor, further strengthening its R&D expertise to support Kebni's growth journey.

The Board of Directors of Kebni AB (publ) intends to appoint Martin Elovsson to the Board, bringing with him in-depth knowledge and experience from the machine industry.

Elovsson has a history as Head of Engineering AH at Volvo Construction Equipment and is currently the COO at boiler company VEÅ AB. He holds a master's degree in mechanical engineering from Chalmers University of Technology and an MBA from the University of Gothenburg.

"Martin, with his extensive experience of leading and developing high achieving development teams and industry companies both operationally, tactically and strategically, will bring valuable expertise to Kebni as we take on our continued growth journey" says Anders Björkman, Chairman of the Board, Kebni.
