

Press release 2008-06-13

Order and representative in Norway

C-RAD AB with its three fully owned subsidiaries is all active in the field of radiation therapy. The company has signed a distribution agreement for the market in Norway and also received an order of its patient positioning system to Norway.

In order to maintain a strong presence in the Nordic region C-RAD has signed a distributor agreement in Norway with Nerliens Meszansky. They have a long and experienced history in sales and service to the radiotherapy clinics in Norway. C-RAD has received an order of the laser scanning system Sentinel as part of the agreement. The radiotherapy clinics in Norway have been upgraded over the past years and are generally well equipped with treatment systems that enable advanced treatment methods. C-RAD's laser scanner system Sentinel, which offers high accuracy and increased efficiency in patient positioning and motion detection, is expected to be an appreciated tool in this environment of advanced radiation therapy.

Erik Hedlund, CEO, C-RAD AB:

"We are very pleased to receiving this first order from Norway and to establish Nerliens Meszansky as our representative in Norway. With their solid experience and excellent contacts in the Norwegian radiotherapy market we have now established a firm presence in the Nordic region. The high standards of the radiotherapy clinics in Norway will be able to benefit from the high accuracy and efficiency that our Sentinel concept offers."
