

JonDeTech participates at Intel's Ecosystem Symposium in Shanghai

JonDeTech has been invited to Intel's Client Ecosystem Symposium in Shanghai, which is a two-day event taking place on September 9 and 10, 2019. The company is represented by Head of Engineering and Sales Niklas Kvist and CTO Anders Jansson.

Head of Engineering and Sales Niklas Kvist and CTO Anders Jansson

Niklas Kvist, Head of Engineering and Sales JonDeTech, comments: "Interesting days at Intel Client Ecosystem Symposium in Shanghai. The main focus this year is the Athena program that has the ambition to take all laptops using Intel platform to a new level in terms of power, performance and user experience. One of the key features to achieve this is human presence- and absence detection that is included in the Athena specification direction for 2020."

About JonDeTech

JonDeTech is a Swedish company that develops, and markets patented IR sensor technology based on nanotechnology. The company's IR sensors are down to one-tenth as thick as conventional sensors, built in plastic and can be manufactured in high volumes at a low cost, which opens for a variety of applications in, among other things, consumer electronics and mobile phones. The company was founded in 2008 and is listed on Nasdaq First North Growth Market. Redeye is the company's Certified Adviser, +46-8-121 576 90, certifiedadviser@redeye.se, <https://www.redeye.se>. Read more at www.jondetech.se or see how the IR sensor works at www.youtube.com/watch?v=2vEc3dRsDq8.
