

## Press Release

Helsingborg, 25 September 2024

# MilDef ARMOR IT, at AUSA 2024, the largest U.S. army and defense exhibition

**October 14-16 MilDef will be exhibiting at the Association of the U.S. Army's Annual Meeting and Exposition in Washington D.C. MilDef will showcase rugged IT solutions for the digitalized battlefield including a new dismounted soldier concept, the next generation of intelligent displays and a NIAP certified KVM switch.**

AUSA is the place to address top US and global military leaders on MilDef's cutting edge Tactical IT for digitalization of armed forces. This year's AUSA theme is "Transforming for a Complex World". MilDef design, produce and deliver long life cycle products & solutions for a tactical environment. The offer includes a wide selection of IT platforms including computer, display, network equipment and peripheral devices. At AUSA MilDef will present:

- **Dismounted soldier System (DSS)** – suite is built on the **T.A.D. End User Device** (Tactical Android Device), MilDef **DSS HUB** and the MilDef **OneCis software** – for seamless situational awareness in tactical environment and with long product life cycle.
- **Cyber security** - Showcasing latest progress within cyber security, including tempest computers, NIAP certified KVM switch, next-generation firewall (NGFW) in-vehicle deployment.
- **Command post** - Selection of MilDef's portfolio of rugged mobile laptops & workstations.
- **Solutions** - Showcasing MilDef system integration in battle ready customer cases.
- **Product stage experience** - Demonstrations of a wide selection of the MilDef tactical product range.

*"We have never presented such a strong line up of products and solutions at the AUSA show. It's a perfect platform for MilDef to team up with key players that are devoted to build the future army, in the US, in coalition forces and NATO-markets. Our offering help accelerate the much-needed digitalization of battle-ready capabilities," says Fredrik Persson, CTO/Deputy CEO MilDef.*

Through long-term relationships and close customer interaction MilDef provides products, services and knowledge that turn into unique customer solution combinations that solves strategically important customer specific challenges. MilDef's rugged military-off-the-shelf (MOTS) building blocks are used to forge reliable systems that will be supported over many years. The offering includes a wide selection of SWaP-C-optimized platforms including computer, display, network equipment and peripheral devices. The units can be delivered in a standardized form factor like the modular 19"/2 MOTS unit, or highly customized units specifically designed to customer specifications.

AUSA takes place Oct 14-16 Washington DC, Walter E. Washington Convention Center, booth 7941.
