

## Press Release

Helsingborg, 25 April 2024

# MilDef signs strategic hardware contract in Estonia worth 53 MSEK

**The contract covers the integration of MilDef's tactical IT hardware into an Estonian defense project for armored vehicles. This is a collaboration with a local Estonian partner and the biggest order to date for MilDef on the Estonian market, therefore strategically important. Deliveries will start in 2024.**

The procurement evolves over 400 units of MilDefs bespoke servers, switches, routers and media converters. IT-solutions for the harshest conditions and most challenging environments, which prevent information from being interrupted, intercepted or disrupted.

*“Apart from being the single largest order so far landed on the Estonian market it is also a contract that materialized faster than we anticipated. Sense of urgency meant that the vehicle producer brought forward their deliveries to the end customer and consequently MilDefs delivery will be advanced, says Daniel Ljunggren, CEO and President MilDef Group.*

*The information was submitted for publication, through the agency of the contact persons set out below, at 09:00 CET on April 25, 2024.*
