Precise Biometrics Appoints CPS as Distributor/Reseller of its Biometric Smart Card Readers

Precise Biometrics announced today that they have appointed CPS as a distributor/reseller of its biometric and smart card readers. Using its online store Smartware2u (www.smartware2u.com), CPS is able to supply all Precise Biometrics readers, including Precise Sense™ and the Precise 250 MC and Precise 200 MC readers directly to the end-customer.

“We are extremely delighted to have the opportunity to work with such an innovative technology provider. We believe that the Precise Biometrics products enable our customers to implement the best security solutions to meet their needs in preventing unauthorized logical access to desktop computers. A partnership with a world-leading biometrics solution provider like Precise Biometrics enhances the value proposition CPS offers to its customers in the security and identification space,” said Andrew Paterson, Managing Director at CPS.

The Smartware2u Web store gives Precise Biometrics customers fast and easy online access to purchase readers for delivery within 48 hours. This includes Precise Biometrics’ most recent offering, Precise Sense, a cost-efficient and flexible line of smart card and fingerprint readers in various configurations.

The CPS experience in the smart card and IT security field makes it a natural fit for Precise Biometrics. This is particularly relevant in the UK and Ireland market, where CPS serves the government, enterprise, and healthcare markets, all areas where Precise Biometrics readers shine.

CPS provides a number of solutions on various card platforms covering both Java and .net which allows customers to implement versatile solutions leveraging strong authentication with smart cards and biometrics for logical access across their organization. The extensive experience of CPS and their online delivery facility provides an ideal platform for distributing the Precise Biometrics hardware family, in the UK and Ireland and beyond.

About CPS (www.cardps.com)

CPS provides a unique set of services to manage the challenges presented by the implementation and deployment of identity and access management credentials using smart cards and tokens. With our own in-house development, manufacturing, bureau and fulfillment services, and aligned with our position as the Gemalto distributor for the UK, it provides our customers with the assurance that we have the capability to deliver and deploy their secure identities.
