Precise Biometrics fingerprint software integrated in over 100 smartphones

Precise Biometrics' algorithm solution for convenient and secure fingerprint recognition on smartphones and tablets, Precise BioMatch Mobile™, has been integrated into over 100 smartphones from more than 30 manufacturers.

"We are proud that more than 30 smartphone vendors has chosen to integrate Precise Biometrics fingerprint software in over 100 smartphones. This proves that our software provides the best user experience and security for products with small fingerprint sensors. Today, our technology serves hundreds of million users every day all over the world, said Håkan Persson, CEO of Precise Biometrics.

[Precise BioMatch Mobile](#) is the industry leading algorithm solution for convenient and secure fingerprint recognition on smartphones and tablets. The unique and patented hybrid algorithm solution is optimized for small fingerprint sensors and platforms with limited processing power and memory space. Precise BioMatch Mobile offers fast, accurate, and secure verification of user's identity, creating a convenient user experience when unlocking mobile devices or authenticating to services.
