## Precise BioMatch™ Mobile deployed in new smartphone from a Chinese OEM

Precise Biometrics announced today the deployment of Precise BioMatch Mobile in a new smartphone from a Chinese OEM. Precise BioMatch Mobile is Precise Biometrics' fingerprint recognition algorithm for mobile devices. For this deployment, Precise BioMatch Mobile will be used in conjunction with Qualcomm® Snapdragon Sense™ ID 3D fingerprint technology.

Precise Biometrics is currently projecting this deployment of Precise BioMatch Mobile will generate royalty revenue starting from the third quarter of 2016. Royalty revenue, is based on sales of fingerprint sensors that utilize Precise BioMatch Mobile and cannot be forecasted by Precise Biometrics at this point.

Precise BioMatch Mobile is the industry's leading algorithm solution for convenient and secure fingerprint recognition in smartphones and tablets. The unique and patented hybrid algorithm solution is optimized for small fingerprint sensors and platforms with limited processing power and memory. Precise BioMatch Mobile offers fast, accurate, and secure verification of user identity, creating a more convenient experience when unlocking mobile devices or authenticating user services.
