Precise BioMatch Mobile integrated in smartphone from Yulong

Precise Biometrics product for fingerprint recognition in mobile devices, Precise BioMatch™ Mobile, has through cooperation with Fingerprint Cards (FPC) been integrated in the first smartphone from Yulong with touch fingerprint sensor, Coolpad Tiptop Pro.

"Precise BioMatch Mobile enables convenient and secure fingerprint recognition for smartphones. We are happy that yet another leading Chinese smartphone vendor has chosen to integrate our product, which shows that we have established a strong position in the Chinese market, says Håkan Persson, CEO of Precise Biometrics.

The integration was reported in the interim report for the first quarter 2015 as one of two new mobile phones that includes Precise BioMatch Mobile. The value of license revenue is based on the number of sensors FPC delivers to the mobile phone manufacturer and cannot be forecasted at this point.
