

Obducat receives initial order valued at 1.8 million SEK from a leading European company in the aviation, defense and space industry

OBDUCAT AB (publ) subsidiary Obducat Europe GmbH, a leading supplier of system solutions for lithography processing, has received an initial order from a leading European company in the aviation, defense and space industry, for the supply of two QS resist processing systems. The order value amounts to approx. 1.8 million SEK and the systems will be delivered in first quarter 2020.

The QS systems are configured to perform coating and developing processes. The systems will be used for in conjunction with the development of optical devices among other things. Due to confidentiality requirements further information cannot be disclosed at this point.

"We are very pleased to have received this initial order from this company. The order is strategically important and is at the same time a confirmation of our technology level as a leading player in our industry.", says Patrik Lundström, Chairman of Obducat.
