

Obducat receives order valued at 3.1 million SEK from a well renowned R&D institute in Germany

OBDUCAT AB (publ) subsidiary Obducat Europe GmbH, a leading supplier of system solutions for lithography processing, has received an order from a well renowned R&D institute in Germany, for the supply of five bench mounted lithography processing modules. The order value amounts to approx. 3.1 million SEK.

The processing modules will be integrated into a larger processing unit for use in applied research in the field of photonics and innovative optical systems to control light. No further information can be given now due to confidentiality requirements.

The processing modules are planned to be delivered in the fourth quarter this year.
