

## Obducat receives orders for production service to a value of approximately SEK 1.3 million

**OBDUCAT AB (publ) subsidiary Obducat Technologies AB, a leading supplier of lithography solutions based on Nanoimprint Lithography (NIL), has received orders from two customers concerning production service. The total order value amounts to approximately SEK 1.3 million.**

One customer is a European player in the field of photonics and the order now received is a follow-up order within the framework of a pilot project that is progressing according to plan, and which was started in the autumn. The project is expected to be completed in 2022.

The other customer is an Asian player active in meta lenses. The order refers to an evaluation project in which Obducat will use its patented NIL technology to produce a pre-series of tests on behalf of the customer. The project is expected to be completed in 2022.

Both projects have the potential to lead to longer delivery agreements with Obducat regarding continuous production. Due to confidentiality requirements, no further information can be provided.
