

## Obducat receives final acceptance for EITRE® Large Substrate system

**OBUDUCAT AB's (publ) subsidiary Obducat Technologies AB, a leading supplier of Lithography solutions based on nanoimprint lithography (NIL), confirm that final acceptance has been obtained for the EITRE Large Substrate system delivered in 2020 to a customer in Asia.**

Obducat has now completed the installation of and conducted tests for the final acceptance of the EITRE Large Substrate system which was delivered to a customer in Asia in 2020. Installation has primarily been delayed as a result of restrictions related to the Corona pandemic.

The customer has put the system into operation immediately after the final acceptance. Further information about the customer and the applications in which the EITRE system will be used cannot be disclosed due to confidentiality requirements from the customer.
