

Government loan converted into grant and generate positive income of SEK 9 million in the second quarter

FRI, MAY 31, 2024 15:10 CET

In 2011, Heliospectra was granted a conditional loan of SEK 9 million by the Governmental Swedish Energy Agency. The Swedish Energy Agency has now decided to convert the loan into a grant.

The decision means that Heliospectra's interest-bearing loan is reduced by SEK 9 million and the grant is reported as other income in the second quarter.

This information is such which Heliospectra AB (publ) is obliged to make public pursuant to the EU Market Abuse Regulation. The information was submitted for publication, through the agency of the contact person set out above, at 15:10 CEST on May 31, 2024.

Heliospectra AB (publ) (Nasdaq First North Growth Market: HELIO) was founded in 2006 in Sweden by plant scientists and biologists with one vision – to make crop production more intelligent and resource-efficient. Today, with customers across seven continents, Heliospectra is the global leader in innovative horticulture lighting technology, custom light control systems and specialized services for greenhouse and controlled plant growth environments. Designed by growers for growers, Heliospectra builds customized LED lighting strategies and controls to automate production schedules, forecast yields and monitor crop health and performance with real-time data and response, to deliver the light plants love and the consistent results growers need.
