Item 14: Resolution on authorization regarding issues

The reason for why a deviation from the shareholders'

preferential rights should be possible is to enable the company to source working capital, to be able to execute acquisitions of companies or operating assets as well as to enable new issues to industrial partners within the framework of partnerships and alliances. The total number of shares that may be issued (alternatively be issued through conversion of convertibles and/or exercise of warrants) pursuant to the authorization shall not exceed 4,058,554 shares, which corresponds to a dilution of approximately 10 per cent calculated on the current number of shares. In case the authorization is used for a new issue with deviation from the shareholders' preferential rights, the issue shall be made on market terms.

The company's CEO shall be authorized to make minor formal adjustments of the resolution which may be required for registration with the Swedish Companies Registration Office.

Item 15: Resolution on implementation of a warrant program by way of (A) directed issue of warrants; and (B) approval of transfer of warrants

The board of directors proposes that the annual shareholders' meeting resolves to implement a warrant program for employees and consultants in the company based on issue and transfer of warrants (the "**Warrants Program 2022/2025**").

To implement the Warrants Program 2022/2025, the board of directors proposes that the annual shareholders' meeting resolves on (A) directed issue of warrants; and (B) approval of transfer of warrants, on the following terms and conditions:

A. Directed issue of warrants

A maximum of 300,000 warrants shall be issued for the Warrants Program 2022/2025.

With deviation from the shareholders' preferential rights, the right to subscribe for the warrants shall only vest in a wholly owned subsidiary to the company (the "**Subsidiary**"). The reason for the deviation from the shareholders' preferential rights is that the warrants shall be used within the Warrants Program 2022/2025.

The Subsidiary's subscription shall be made at the latest on 30 June 2022, with a right for the board of directors to prolong the subscription period.

Over subscription cannot occur.

The warrants shall be issued to the Subsidiary against cash consideration which shall correspond to the warrant's fair market value calculated in accordance with the Black Scholes formula. The calculation of the fair market value of the warrants shall be established by ÖhrlingsPricewaterhouseCoopers AB in connection with the expiration of the measurement period on 20 May 2022. Payment shall be made in connection with subscription.

Each warrant shall entitle to subscription of one share in the company. Subscription of shares by virtue of the warrants may be effected as from 1 June 2025 up to and including 30 June 2025.

The subscription price per share shall correspond to 200 per cent of the volume weighted average price according to Nasdaq First North Growth Market's official price list for shares in the company during the period as from and including 12 May 2022 to and including 20 May 2022. The subscription price shall be rounded to the nearest whole öre, whereupon 0.5 öre shall be rounded upwards. The amount that exceeds the share quotient value shall be added to the free share premium reserve. The subscription price and the number of shares that each warrant entitles right to subscribe for are subject to customary recalculation in the event of a split-up or consolidation of shares, rights issue etc.

The shares issued upon utilization of a warrant shall confer right to dividends the first time on the record date for dividends that occurs immediately following effectuation of subscription to such extent that the share has been recorded in the company's share ledger as interim share.

In case all warrants are utilized for subscription of new shares, the share capital will increase with SEK 30,000.

B. Transfer of warrants

The Warrants Program 2022/2025 shall principally be carried out in accordance with what is stated below.

The Subsidiary shall have the right, on one or several occasions, to transfer the warrants to employees and consultants in the company in accordance with the terms and guidelines set forth below. Transfer to participants under the Warrants Program 2022/2025 shall be made against cash consideration which shall correspond to the fair market value of the warrant calculated in accordance with the above. According to a preliminary valuation, the market value of the warrants corresponds to approximately SEK 0.88 per warrant (assuming a share price of SEK 23.50, a subscription price of SEK 47 per share, a risk free interest of 0.84 per cent and a volatility of 30 per cent), calculated in accordance with the Black Scholes formula.

The board of directors of the company shall resolve upon allotment to participants in the Warrants Program 2022/2025, whereby participants in each category listed below can be offered up to the maximum of the number of warrants listed below:

- | | | |
|-----|---|---|
| (a) | CEO | a maximum of 100,000 warrants |
| (b) | Other senior executives
(5 persons) | a maximum of 40,000 warrants per person |
| (c) | Other employees/consultants
(approximately 40 persons) | a maximum of 20,000 warrants per person |

Allotment is estimated to occur on 15 June 2022 at the latest.

A participant can subscribe for a lower number of warrants compared to what is offered to the participant. Over subscription cannot occur.

Right to allotment in the Warrants Program 2022/2025 requires that the participant at the relevant time of allotment at the latest, holds a position in the company or has signed an agreement regarding it and has not, at such time, informed or been informed that the employment or assignment will be terminated.

For participants in other jurisdictions than Sweden, it is implied that transfer of warrants is legally possible and that transfer, in the board of director's opinion, can be carried out with reasonable administrative and financial efforts at their established fair market value. The board of directors shall be authorized to adjust the terms and conditions of the Warrants Program 2022/2025 to the extent required in order for allotment of warrants to participants in other jurisdictions, to the extent practically possible, to be carried out under the same conditions imposed by the Warrants Program 2022/2025.

Other information regarding the Warrants Program 2022/2025

The reasons for the implementation of the Warrants Program 2022/2025 and the deviation from the shareholders' preferential rights are to be able to create possibilities for the company to retain competent staff through the offering of a long term ownership engagement for the employees and consultants in the company. Such ownership

engagement is expected to stimulate the employees and consultants in the company to an increased interest for the business and the earnings trend as well as to increase the feeling of connectedness with the company.

Since the warrants in the Warrants Program 2022/2025 will be transferred to the participants at the fair market value, the company's assessment is that the company will not incur any social costs in relation to Warrants Program 2022/2025. The costs related to Warrants Program 2022/2025 will hence only be composed of limited costs for implementation and administration of the program.

Per the date of the notice, the number of shares in the company amounts to 36,526,989.

In case all warrants issued within the Warrants Program 2022/2025 are utilized for subscription of new shares, a total of 300,000 new shares will be issued, which corresponds to a dilution of approximately 0.81 per cent of the company's share capital and votes after full dilution, calculated on the number of shares that will be added upon full utilization of all warrants issued under the Warrants Program 2022/2025. The dilution would only have had a marginal impact on the key figure earnings per share for the full year 2021.

There is currently incentive programs in the form of three warrants programs outstanding in the company pursuant to which in the aggregate 900,000 new shares may be issued. If all existing incentive programs that are outstanding and the proposed Warrants Program 2022/2025 are exercised in full, in the aggregate 1,200,000 shares will be issued, which corresponds to a dilution of approximately 3.18 per cent of the company's share capital and votes after full dilution, calculated on the number of shares that will be added upon full exercise of all outstanding incentive program and the proposed Warrants Program 2022/2025.

The above calculations regarding dilution are subject to re-calculation of the warrants in accordance with the customary recalculation terms included in the applicable warrant terms.

The proposal of the Warrants Program 2022/2025 has been prepared by the board of directors together with external consultants.

The board of directors' proposal in accordance with Sections A-B above shall be resolved upon as one resolution by the meeting.

The Chairman of the board of directors shall be authorized to make minor formal adjustments of the resolution which may be required for registration with the Swedish Companies Registration Office or Euroclear Sweden AB.

Particular majority requirements

For valid resolutions on the proposals pursuant to items 13 and 14, the proposals have to be supported by shareholders representing at least two-thirds of the votes cast as well as of all shares represented at the meeting. For a valid resolution on the proposal pursuant to item 15, the proposal has to be supported by shareholders representing at least nine-tenths of the votes cast as well as of all shares represented at the meeting.
