

PRESS RELEASE

Malmö, Sweden, February 19 2019

Polygiene Sells Protective Surfaces Category to Longtime Partner

The business category of Protective Surfaces, where Polygiene began its operations, entails everything from non-textiles, paint, plastic surfaces and floors to metal treatments. The focus has shifted over the years, and the core business of Polygiene is now within the textile industry. The business and Polygiene's customers of Protective Surfaces, are being transferred to a partner with long experience and extensive knowledge in this area, Addmaster (UK) Ltd. The business area of protective surfaces represents a very small part of Polygiene's total operations, 5% of the total turnover. The consideration is set to SEK 10.6 Million but is conditional of the development during 2019. The payment will be settled during the first quarter of 2019 and 2020.

"The transition of Protective Surfaces is a strategic decision that gives us the possibility to streamline and accelerate within our core business. It will free resources internally and give us the possibility to increase our efforts and investments in strategic areas in the coming years. All with the aim to put 100 percent focus on the growth journey we have ahead of us", says Ulrika Björk, CEO Polygiene.

The agreement is valid from December 27, 2018.
