

Press release 2012-11-27

C-RAD has signed a distribution agreement with British company Vertec Scientific Ltd.

C-RAD AB with its three fully owned subsidiaries in Sweden and three international sales companies are all active in the field of radiation therapy. A distribution agreement has been signed with British company Vertec Scientific Ltd. C-RAD will be represented by Vertec Scientific in Great Britain and the Republic of Ireland.

Vertec Scientific is a sales and service organization dealing almost exclusively in the medical and scientific fields. The company, established in 1978, has a long experience in radiation therapy and in diagnostics. Vertec Scientific has an unsurpassed reputation for quality of products and after sales service which has been built up over many years. Vertec has been ISO 9000 accredited since 1995.

Currently employing 23 staff, the company is housed in Silchester, Reading. Vertec has also staff members based in the North and Midlands – in sales and in service – to support customers.

Erik Hedlund, CEO, C-RAD AB:

” We are proud to announce the new relationship and agreement signed with Vertec Scientific. Vertec is a well-known distributor of high tech products in the medical field in Great Britain and on Ireland. Activities with Vertec have already started and projects are ongoing. In spite of a previously extensive support to former distributor by C-RAD, projects were not realized, nor did the cooperation and communication with the clinical partner work. We are convinced Vertec is the right partner to sell the C-RAD Sentinel and Catalyst solutions.”
