

## **PRESS RELEASE**

**Published:** 28-06-2019

### **Ziccum receives research grant from Vinnova AB (publ)**

**(Stockholm June 28, 2019) Ziccum has received a 200,000 SEK research grant from Vinnova AB (publ). The research grant will be used to evaluate Ziccum's method of producing vaccines in dry-powder form.**

The evaluation will take place in the 'TESTA Center' laboratories in Uppsala in premises that comply with BSL2 (Biosafety Level 2) standards, the required standard for collaboration with industrial partners on vaccine development.

#### **About Ziccum**

Ziccum AB (publ) develops new patented formulations of biological drugs where sensitivity to temperature differences, especially during transportation, currently limits medical and so commercial potential. The company's patented technology, LaminarPace, develops dry powder formulations of drugs and vaccines that currently only exist in liquid form. By doing so Ziccum can increase the availability of drugs and vaccines in existing markets—and open up new ones.
