

## Realheart provides clarification on UAE media reports

Scandinavian Real Heart AB would like to make the following comment regarding information in the Arabic media tonight:

It is correct that we are in discussions with a party in the United Arab Emirates (UAE) about a possible investment in Realheart and the opening of a representative office in Sharjah, but no agreement has been reached.

The founder, Dr Azad Najjar, is currently in the UAE for participation in the International Conference of Pharmacy and Medicine.

*This disclosure contains information that Real Heart is obliged to make public pursuant to the EU Market Abuse Regulation (EU nr 596/2014). The information was submitted for publication, through the agency of the contact person, on 18-01-2022 20:44 CET.*

*Scandinavian Real Heart AB develops a total artificial heart (TAH) for implantation in patients with life-threatening heart failure. Realheart TAH has a unique, patented design that resembles that of the natural human heart. The artificial heart consists of a four-chamber system (two atriums and two chambers) which provides the opportunity to generate a physiologically adapted blood flow that mimics the body's natural circulation. A unique concept in the medical technology world.*
