

Press release, 1 May 2022

Realheart releases the annual report for 2021

Today, Realheart publishes the mandatory annual financial report for 2021. A layout version with reports, collaborations and milestones during the year will be released in connection with the invitation to the Annual General Meeting that is scheduled for May 11, 2022.

The entire annual report and the auditor's report are available on the company's website, www.realheart.se and as an appendix to this press release.

Scandinavian Real Heart AB develops a total artificial heart (TAH) for implantation in patients with life-threatening heart failure. Realheart TAH has a unique, patented design that resembles that of the natural human heart. The artificial heart consists of a four-chamber system (two atriums and two chambers) which provides the opportunity to generate a physiologically adapted blood flow that mimics the body's natural circulation. A unique concept in the medical technology world.
