

# Realheart Releases the Annual Report for 2022

Press Release, 24 May 2023

Today, Realheart publishes the annual report for 2022. In addition to the regular Swedish version, a designed version is also released containing reports, collaborations and milestones during the year.

The annual report including the auditor's report and the designed English version can be found at [www.realheart.se](http://www.realheart.se) and as attachments in this press release.

*Scandinavian Real Heart AB develops a total artificial heart (TAH) for implantation in patients with life-threatening heart failure. Realheart® TAH has a patented design that resembles that of the natural human heart. The artificial heart consists of a four-chamber system (two atria and two ventricles) designed to generate a physiological blood flow pattern that mimics the body's natural circulation. A unique concept in the medical technology world.*
