

## PRESS RELEASE

Malmö, the 25<sup>th</sup> of September, 2017

# TMF and Polygiene offer cycling pads that utilize Polygiene Permanent Odor Control

**Italian cycling pad company, TMF Quality Cycling pads, announces the launch of fully-Polygiene-treated cycling pads. The new partnership allows TMF to treat their pads with Polygiene Odor Control Treatment, providing the ultimate in comfort, freshness and odor control in cycling pads.**

TMF aims to inspire athletes to surpass their limits by achieving product excellence based on their ongoing commitment to research, develop and innovate. *“We are excited to offer our cycling pads with Polygiene. Now our partners will be able to add extra comfort and lifetime freshness to their consumers”*, said Lara Furfaro, Export & Sales Manager at TMF Quality Cycling Pads. TMF takes great pride on their continuous research into design, new materials and technologies, as well as their continuous improvement of quality control processes.

TMF guarantees its customers total comfort, maximum protection and enhanced athletic performance thanks to the use of its pioneering technologies, state-of-the-art materials and innovative design and construction in the creation of unbeatable cycling pads.

*Polygiene’s CEO, Christian von Uthmann says, “Polygiene is proud to partner with TMF, as we feel TMF’s premium pads paired with the permanent odor control from Polygiene will give cyclist additional comfort during every ride.”*

TMF was founded as an Italian business in 1984. In over thirty years, TMF has become a global brand producing and exporting cycling pads and accessories on five major continents. Today, TMF is well known and acclaimed as one of the world’s leading companies in design, innovation and research in the cycling industry
