

**PRESS RELEASE**

Malmö, 14<sup>th</sup> November, 2017

## **Polygiene supplies its technology on desktop dictation device RecMic II series**

**Polygiene, a leading odor control company with more than 100 partner brands worldwide, announces that Polygiene supplies its technology on their desktop dictation device RecMic II series which was launched in July 2017 by Olympus, a manufacturer precision mechanical equipment, with 109 group companies worldwide.**

Polygiene is a recycled silver that prevents the growth of microbes such as bacteria, mold, and fungi. The desktop dictation device, RecMic II series is created to cater to the highest demands of professionals who want the best usability and results with any speech-to-text solution.

This new series are providing the exclusive benefits of the innovative noise cancellation technology with the unique Two-Microphone-System for flexible directionality and noise cancellation. All devices also come with an extra smooth UV-coating and silent buttons to reduce disturbing touch noises. The Polygiene treated surface meets hygienic requirements.

“CEO of Polygiene, Christian von Uthmann, states that he is proud of the fact that our technology was adopted to the desktop dictation device, RecMic II series by Olympus, because Polygiene began in the care industry and has experience in the care industry field.”
