

TagMaster owned CitySync receives orders on ANPR solutions

Press release, Sweden, Stockholm, February 27, 2018

TagMaster, the leading supplier of advanced RFID, Infomobility and ANPR solutions for vehicle identification within Traffic and Rail Solutions has, through its subsidiary CitySync Ltd, received orders from two clients for ANPR projects.

CitySync has received orders for ANPR projects within two different applications. One of the project are within "freeflow" airport parking and the other within access security. The client for the access security project is one of the major retailers in UK that will use CitySync's CS50 intelligent camera for access security across distributions centers all over the country.

All products are part of the standard assortment and will be delivered during first quarter 2018.

"TagMaster has earlier expressed its enthusiasm for the combined ANPR product portfolio that we, after the acquisition of CA Traffic, can offer the market. These orders confirming our ambition becoming the leading ANPR solution provider in UK. We will during this year launch a number of hardware and software innovations within our ANPR product segment and, together with our enlarged salesforce, that will help us increase our market share significantly" says Jonas Svensson, CEO, TagMaster.
