## Toadman Interactive unveils Block N Load 2

**Toadman Interactive unveils new trailer and information for Block N Load 2, an all-new team-based, PVP hero shooter for PC and consoles. Players and fans can now sign-up on [Steam](#) to participate in the upcoming Closed Beta.**

In Block N Load 2, players will have to think fast on their feet in voxel-based arenas where they must build, destroy and fill with traps, teleporters, boosters and more to survive! No two matches will ever be the same as players use resources they gather to change everything and anything in any given level. Each team is encouraged to work together with a well-rounded mix of heroes to make the best use of each unique character's classes and abilities. In addition, what further makes Block N Load 2 a one-of-a-kind experience is that players will be able to create their own arena to their liking - whether it's more traditional and tactical shooter level design or something completely unique - the players will have a chance to fully explore and showcase their creativity.

"We are thrilled to finally reveal more from one of Toadman's latest projects, Block N Load 2," said Ola Nilsson, CEO of Toadman Interactive. "Our team has been hard at work fine tuning the next iteration of the franchise to deliver a brand-new, team-based PVP hero shooter gameplay experience that will be easy for any player to pick-up but hard to put down."
