

SolTech Energy

SolTech Energy presents its current retailers where Svea Solar is not included

On November 22, 2017, SolTech Energy presented a collaboration with Svea Solar. At present, this collaboration is not ongoing and SolTech has replaced this with mainly our own subsidiaries Nyedal Solar Energy, Swede Energy and the NP Group and a number of wholesalers and solar energy companies.

In addition to our subsidiaries, the company has dealerships with the following companies:

- Kraftpojkarna and Rexel, the leading wholesalers in Sweden
- Benders, Solkraft Sverige, Soldags, Measol, Panel roof, Partbuilding, Ecocharge and Jämtsol Energi AB

The information was submitted through the above contact person's agency for publication on June 28, 2019 at 10.45 CET.

About SolTech Energy Sweden AB (publ)

SolTech Energy develops and sells aesthetic and building-integrated solar energy products for all types of real estate – commercial, public and residential. The products are part of a building's outer shell in the form of a roof or a wall with integrated solar cells for the production of electricity. The Group also conducts operations in China where the business model consists of financing, owning and operating solar power plants on customers' roofs and selling all the electricity that is produced. The Group also includes the subsidiaries Nyedal Solenergi, the NP Group and Swede Energy, as well as the jointly owned companies ASAB in Sweden and ASRE in China. SolTech Energy Sweden AB (publ) is traded on First North at Nasdaq Stockholm under the short name SOLT and has about 25,000 shareholders. The Company's Certified Adviser Erik Penser Bank Telephone: +46 8 463 83 00. Email: certifiedadviser@penser.se. More info at: www.soltechenergy.com
