

Nordic Iron Ore publishes the Executive Summary of the Blötberget Feasibility Study

Nordic Iron Ore announces that the Executive Summary of the Blötberget Feasibility Study (undertaken by Golder Associates) has been published.

As previously announced, the study shows that the conditions are in place for a profitable mining operation. The study can be found on the company's website: www.nordicironore.se/en/ludvika-mines/technical-reports.

Nordic Iron Ore Group is a mining company with the ambition to revive and develop the iron ore production of Ludvika Mines in Blötberget and Håksberg. The company also intends to expand its mineral resources, and upgrade them to ore reserves, primarily through exploration and other studies of the connecting Väsman field. The Company has all the necessary permits in place for the mine in Blötberget and will be able to produce iron ore of extremely high quality.
