

HANZA wins customer in digital security solutions

HANZA Holding AB (publ) has signed a manufacturing agreement with a global developer of digital security solutions. Production will take place in HANZA's Swedish manufacturing cluster with an initial order value of approximately SEK 30 million annually.

The customer is a global security company that has developed a new standard for easy and secure access to computers, mobile devices, servers and Internet accounts. The purpose is to prevent unwanted data breaches.

"We are proud to be chosen as a manufacturing partner for this project, which is mainly due to two things. Partly our ability to meet the rigorous security requirements, where we work according to our information security certificate ISO27001. Partly our manufacturing concept, with a complete and flexible production environment that enables us to quickly adapt to volume increases ", says Veronica Svensson, Sales Director Scandinavia.

Serial production is intended to start during the second quarter of 2022.

About HANZA:

HANZA is a knowledge-based global manufacturer that modernizes and streamlines the manufacturing industry. Through supply-chain advisory services and our own factories grouped into regional manufacturing clusters, we offer secure deliveries, increased profitability and sustainable manufacturing solutions for our customers.

HANZA was founded in 2008 and has since 2019 had sales exceeding SEK 2 billion. The company has production units in seven countries; Sweden, Finland, Germany, Estonia, Poland, the Czech Republic and China. Among our clients are leading product companies such as ABB, Epiroc, GE, Getinge, Oerlikon, Saab and Siemens.

HANZA is listed on Nasdaq Stockholm's main list (ticker: HANZA).
