

HANZA expands – opens three new premises

HANZA AB (publ) continues to grow. New factory premises in Poland, the Czech Republic and China were opened during September. In total, roughly 6,000 square meters of factory space has been added.

- The expansion is a direct result of a continued high order intake for HANZA, says CEO Erik Stenfors.

The factories in Central Europe meet the great demand from Germany and Scandinavia. The factory in China means that we can expand our offer to customers who have manufacturing in China - for China.
