

Press release 2018-06-27

Insplorion sells an XNano system to Professor Yalong Bai at Shanghai Academy of Agricultural Sciences (SAAS), China

Professor Yalong Bai at Shanghai Academy of Agricultural Sciences, School of Environmental Science & Engineering and his group will use the XNano System for research within detection of pathogens, viruses and bacterium. The sale has been conducted by Insplorion's Chinese distributor Honoprof with an order value of almost 500 000 kr.

"We see the XNano beneficial when it comes to life science applications and we predict that it will be a valuable tool for our studies on detection of pathogens, viruses and bacterium.", comments Professor Yalong Bai, Shanghai Academy of Agricultural Sciences.

The sales have been conducted through Insplorions distributor Honoprof who continues to generate interest for the Insplorion instruments in China.

"The Chinese market has for a while been our main market with good finance for advanced research instruments and a strong commitment from our distributor Honoprof. It is also great to see that we are interesting in different fields of science.", comments Patrik Dahlqvist, CEO at Insplorion.
