

The data analysis company FactSet draws power from Veg of Lund's plant-based drink DUG®

The international data analysis company FactSet has offices in 22 countries and delivers data and analyses to over 100,000 customers in the capital market. From October, FactSet's employees in London will be able to choose plant-based drinks from Veg of Lund.

"The agreement with FactSet means that we are taking steps into the important office market. Demand for catering services is increasing in line with the restart of the offices and the employees' desire to be able to choose climate-smart and healthy food also in the workplace. We will be more active in reaching the larger workplaces that see the value of being able to offer their employees climate-smart and healthy drinks," says Cecilia Lindwall, CEO of Veg of Lund.

Seth Weir, Sales Director, London DDC Foods says:

"We are delighted to be supplying FactSet and a growing number of London based customers with DUG products. As a distributor, DDC Foods embrace new products that identify a trend and provide a great option to products already in the market. We love the fresh approach from DUG, the company ethos and enthusiasm and the passion for providing a high-quality allergen friendly alternative to dairy products and other alternatives".

More information about DUG® and current points of sale can be found at dugdrinks.com.
