Maha Energy AB (publ) (“Maha” or the “Company”) August Production Volumes

Production Volumes

The Company's aggregate sales production for the month of August totaled 102,108¹ barrels of oil and 51.013 million scf of gas for a combined average production of approximately 3,568 BOE/day², before royalties and taxes.

Brazil production progressively increased during August as both the gas and oil customers, continued with previously announced upgrading and commissioning of their facilities to take more volumes. Oil deliveries to Petrobras from the Tie Field were affected for four days due to unscheduled maintenance at the Petrobras unloading station. Tartaruga Field lost one day of production due to minor pump maintenance in the field.

Maha Energy holds a 75% working interest in the SES-107 Tartaruga oil and gas concession onshore Brazil. Petrobras holds the remaining 25% and is non-operator.

¹ Subject to minor standard industry adjustments at the time of custody transfer.

² Barrels of oil equivalent ("BOE") conversion ratio of 6,000 scf: 1 bbl is used.
