

Swedish wind farm Jenåsen completed and handed over to Munich Re

Hässleholm, Sweden, August 30, 2018

Eolus has completed wind farm Jenåsen in Sundsvall municipality. All conditions for the completion of the transaction between Eolus and MEAG, asset manager of Munich Re, regarding the sale of the wind farm comprising 79 MW have been fulfilled and the buyer has taken over the facility.

In May 2017 Eolus signed an agreement with MEAG regarding the sale of wind farm Jenåsen, comprising 23 Vestas V126 3.45 MW wind turbines, to Munich Re. The agreement was made public through a press release on May 31st, 2017. All conditions for the fulfillment of the transaction regarding the turn key wind farm have been met, payment have occurred and the buyer has taken over the facilities.

Eolus will deliver asset management services for the wind farm. The electricity produced by the wind farm will be sold to Google via a power purchase agreement.
