

Press Release
For Immediate Distribution

**Erik Penser Bankaktiebolag
to publish SinterCast analyst reports**

[Stockholm, 14 October 2013] – SinterCast AB (publ) has entered into an agreement with Erik Penser Bankaktiebolag to provide analyst coverage of SinterCast's market progress. Through its *EP Access* service, Penser will begin its coverage of SinterCast with the publication of a detailed initial analysis, expected to be issued during November. Thereafter, the *EP Access* reports will be issued quarterly, following the publication of each SinterCast interim report. The analyses will be distributed by e-mail to more than 8,000 recipients and will be issued as a press release by the *beQuoted* news distribution service. The *EP Access* reports will also be published on the Erik Penser Bankaktiebolag website and the *beQuoted* website.

"In parallel with the positive growth in our global customer market, we have taken this step with Erik Penser Bankaktiebolag to improve the awareness of our progress in the investor market" said Dr Steve Dawson, President & CEO of SinterCast. "Together with the analyst coverage provided by Remium since 2007, we believe that the collaboration with *EP Access* will allow us to tell the SinterCast story to a wider audience, improving the interest in our development and the turnover of the SinterCast share."

Erik Penser Bankaktiebolag is a privately owned and independent bank that focuses on creating value for its clients and offers a broad range of financial services to retail and institutional investors. The aim for Erik Penser Bankaktiebolag is to be perceived as the leading independent provider of financial solutions to a qualified audience, by using a professional, caring and personal approach. Erik Penser Bankaktiebolag has approximately 90 employees and is based at Biblioteksgatan 9 in Stockholm. Erik Penser Bankaktiebolag operates under the supervision of the Swedish Financial Supervisory Authority and is a member of the leading Nordic exchanges, SwedSec and Swedish Securities Dealers Association.

SinterCast is the world's leading supplier of process control technology for the reliable high volume production of Compacted Graphite Iron (CGI). With at least 75% higher tensile strength, 45% higher stiffness and approximately double the fatigue strength of conventional grey cast iron and aluminium, CGI allows engine designers to improve performance, fuel economy and durability while reducing engine weight, noise and emissions. The SinterCast technology is used for the production of more than 50 CGI components, ranging from 2 kg to 17 tonnes, all using the same proven process control technology. The end-users of SinterCast-CGI components include Allen Diesels, Aston Martin, Audi, Cameron Compression, Caterpillar, Chrysler, DAF Trucks, Ford, Ford-Otosan, General Electric Transportation Systems, General Motors, Hyundai, Jaguar, Jeep, Kia, Lancia, Land Rover, MAN, Maserati, Navistar, Porsche, PSA Peugeot-Citroën, Renault-Nissan, Scania, Toyota, VM Motori, Volkswagen, Volvo and Waukesha Engine. The SinterCast share is quoted on the Small Cap segment of the NASDAQ OMX stock exchange (Stockholmsbörsen: SINT). For more information: www.sintercast.com
