Important information

The publication or distribution of this press release may in certain jurisdictions be subject to restrictions by law and persons in such jurisdictions where this press release has been made public or distributed should inform themselves about such restrictions and act accordingly.

This press release may not be announced, published or distributed, directly or indirectly, to or in the United States of America, Canada, Japan New Zealand South Africa or Australia or in any other country where such measure wholly or partly is subject to restrictions by law. The information in this press release may not be forwarded, reproduced or shown in any way that is in conflict with such restrictions. Failure to comply with this instruction may constitute a violation of the United States Securities Act of 1933 ("Securities Act") or applicable laws in other jurisdictions.

Nothing in this press release shall be deemed to constitute an invitation or an offer to invest, subscribe or otherwise deal with shares, subscription rights or other securities in SinterCast. The invitation to relevant persons to subscribe for shares in SinterCast will only be made in the prospectus mentioned above.

Neither unit rights, nor paid and subscribed units or new shares will be registered pursuant to the Securities Act or to any provincial law in Canada and may not be transferred or offered for sale in the United States of America or Canada, or to a person domiciled in such state or for such persons account other in such cases, where registration is not required pursuant to the Securities Act or any provincial law in Canada.

SinterCast is the world's leading supplier of process control technology for the reliable high volume production of Compacted Graphite Iron (CGI). With at least 75% higher tensile strength, 45% higher stiffness and approximately double the fatigue strength of conventional grey cast iron and aluminium, CGI allows engine designers to improve performance, fuel economy and durability while reducing engine weight, noise and emissions. SinterCast produces a variety of CGI components ranging from 2 kg to 17 tonnes, all using the same process control technology. The end-users of SinterCast-CGI components include Aston Martin, Audi, Caterpillar, Chrysler, DAF Trucks, Ford, Ford-Otosan, General Electric Transportation Systems, General Motors, Hyundai, Navistar, Jaguar, Kia, Land Rover, MAN, Porsche, PSA Peugeot-Citroën, Renault, Rolls-Royce Power Engineering, Toyota, Volkswagen, Volvo and Waukesha Engine. The SinterCast share is quoted on the Small Cap segment of the Nordic Exchange OMX, Stockholm (Stockholmsbörsen: SINT).
